

The National Disabled Veterans Winter Sports Clinic

Established in 1987, the National Disabled Veterans Winter Sports Clinic gives disabled veterans an opportunity for self-development and challenge through education, sports, and leisure activities. It promotes rehabilitation by teaching downhill and cross-country skiing to veterans with significant physical or visual impairments. At the Clinic, veterans are also introduced to other adaptive activities such as rock climbing, scuba diving and sled hockey, and can attend educational workshops on such topics as hand cycling, self-defense, or yoga. All Clinic activities help demonstrate that having a physical or visual disability need not be a deterrent to an active rewarding life.

The Clinic depends on volunteers and sponsorships to make the week successful for veterans!

How to Get Involved:

For more Information

- Visit www1.va.gov/vetevent/vaspecialvents/faith/faith.cfm
- Contact a recreation therapist at your local VA Medical Center

Volunteering at a local VA Medical Center

- Donations
- Fundraising
- Sponsor a local veteran to attend the Clinic
